

## **About the Institution**

**Nalla Narasimha Reddy Education Society's** Group of Institutions - an Integrated campus, approved by AICTE and affiliated by JNTUH, Hyderabad, was established in the year 2009 with a primary objective of educating young men and women to prepare them for fast changing national and international requirements, to fund the needy and promote research in the area of science and technology. The Integrated Campus with multi disciplinary Technical, **Engineering, Pharmacy and Management** programs under the banner of Nalla Narasimha Reddy Education Society's (NNRES) Group of Institutions is started. The campus is located at Chowdariguda, Korremula Village, Ghatkesar Mandal, Pin Code 500 088, Ranga Reddy Dist, Telangana state, India.

The college is just 7 km away from Uppal Bus Depot, well connected by the RTC buses and 18 kms away from Secunderabad Railway Station. The College is offering Under Graduate Courses in five disciplines. Computer Science and Technology (CSE), Electrical and Electronics Engineering (EEE), Electronics and Communication Engineering (ECE), Mechanical Engineering (ME), Civil Engineering (CE), B Pharmacy, and Post Graduate Courses in CSE, VLSI & Embedded Systems, Machine Design, M Pharmacy and MBA .

The college is well established Laboratories with Modern Equipment with latest P4 PIV computers, Centralized Digital Library. Adequate facilities have been provided to the students to get best opportunities to aspiring students to equip themselves for better placement opportunities. The academic growth of the students is taken care of by conducting various events like Seminars, Workshops, Internships, Industrial Visits, Project formulations, Activity Clubs, Group Discussions, Mock interviews, Quiz ,Public Speaking and Communication, Sports and Games etc. The College also imparting human values to the students by participating in the programmes conducted by the Vivekananda Institute of Human Excellence.

The college has IEEE, CSI, IETE and ISTE Professional Chapters. Students and Faculty participate actively in co- curricular activities in these bodies.

## **Scope of “Computing Communications & Electrical Engineering” NC<sup>2</sup>E – 2017**

The National Conference “Computing Communications & Electrical Engineering NC<sup>2</sup>E–2017” held on 15<sup>th</sup> & 16<sup>th</sup> December 2017 aims to provide a platform for researchers, engineers, academicians and industrial professionals to present and discuss the most recent advances, trends, and development activities in Electrical Power and Energy Systems. The aim of the conference is to bring Students, Engineers, Researchers and Scientists to single platform for share their knowledge and ideas in areas of Computer Science, Electronics and Electrical Engineering, and to provide an international forum for the dissemination of original research, new innovations and ideas. The conference will bring together experts from different streams of engineering to discuss the contemporary issues, challenges, advances, and innovations in engineering. This will provide a forum for sharing insights, experiences and interactions on various aspects of evolving engineering technologies and patterns, prospective authors from academia as well as Industry are invited to submit their full papers which have not been previously submitted/published that illustrate research, surveying works, and industrial applications that describe significant innovation and advances in Engineering and Technology.

Nalla Narasimha Reddy  
Secretary  
Nalla Narasimha Reddy Education Society's Group Institution

### MESSAGE

I am happy to hear that Department of Electrical and Electronics Engineering, NNRG is organizing Two day National Level conference on “Computing Communications & Electrical Engineering” (NC<sup>2</sup>E-2017) which will be held on 15<sup>th</sup> and 16<sup>th</sup> December 2017.

As this conference is open to research scholars, academicians, scientists and industrialists across nation, it will attract large number of participants and the interaction among them will have fruitful outcome. It will be a common platform to interact and acquaint with latest knowledge and share the innovative ideas in the field of Engineering science and technology.

I convey my good wishes to the members of the team behind this task. I am sure the proceedings brought out on this occasion will be worthy and useful to the professions of engineering and technology. On this happy occasion, I greet the organizing team and wish the celebrations a grand success.

Nalla Narasimha Reddy

**Dr. C. V. Krishna Reddy**  
Director,  
Nalla Narasimha Reddy Group of Institutions

### **MESSAGE**

It gives me immense pleasure to know that Department of Electrical and Electronics Engineering, NNRG is organizing Two day National Level conference on “Computing Communications & Electrical Engineering” (NC2E-2017) which will be held on 15<sup>th</sup> and 16<sup>th</sup> December 2017.

It is very much heartening to perceive the high voltage interactions, which are going to unfurl from the research scholars, academicians, scientists and industrialists across India in the form of presentations.

I warmly welcome all the, Research Scholars and Faculty, scientists and industrialists to enjoy by sharing ideas and discussions in the conference at Nalla Narasimha Reddy Education Society’s Group of Institutions.

I wish that the programme will be a grand success and memorable.

**Dr. C. V. Krishna Reddy**

Dr.G.Janardhana Raju  
Dean, School of Engineering,  
Nalla Narasimha Reddy Group of Institutions

### **MESSAGE**

On behalf of the Management, staff, students and I of Nalla Narasimha Reddy Education Society's Group of Institutions, extends a very warm welcome to all the participants of Two day National Level conference on "Computing Communications & Electrical Engineering" (NC<sup>2</sup>E-2017) which will be held on 15<sup>th</sup> and 16<sup>th</sup> December 2017.

Conducting a National Level conference to meet among research community will bring out awareness, innovative ideas, knowledge in various fields of engineering, science and technology, and also pave the way for good interaction among the participants of various organizations. Participation in NC<sup>2</sup>E-2017 will help them in career development and in pursuit of research. I am confident that the deliberation of this meet would be intellectually stimulating and beneficial to all the participants.

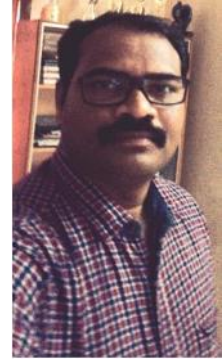

Best wishes to one and all for making this event a glorious success.

Dr.G.Janardhana Raju

Dean,SoE

Dr.P. Ramesh

Professor & Head,  
Department of EEE,  
Nalla Narasimha Reddy Group of  
Institutions

I am pleased and privileged to forward this message as the Conference Chair on the occasion of National Conference on Computing, Communications and Electrical Engineering, (NC<sup>2</sup>E-2017) to be held on 15<sup>th</sup>-16<sup>th</sup>, December 2017. I am sure that this conference will create a wonderful platform for local and national participants to share their experiences and exchange new ideas and the recent development in the fields of Engineering, Science and Technology.

It is sure that the wealth of information and innovation generated through this conference would serve as a launch-pad for several discussions and meaningful deliberations pertaining to the emerging trends in science and technology. I wish to thank the Chairman, Director and Dean SOE for Support to conduct this magnificent event. I extended enormous gratitude to all the delegates and all those who have involved themselves in the successful conduct of the National Conference.

I wish the national Conference to grand success.

Conference Chair  
Dr. P. Ramesh
